contrary.

Is it not a fact that the stopendous, indigested body of our laws is somewhat to blame for the lawlessness of our time?

"Ignorance of the lawlessness of man." And yet atmost every man of necessity must be ignorant of some of the laws. It is a physical impossibility to know all the laws which one is supposed to observe. To know every law, national, state and municipal that effects one would require a constant study of those laws.

Every man is presumed to know the covering a period of the special place. "Alcoholism is one of the most trails and in two is good marking in one of the lawing in the saw of must be specially of the editing I thin, the existence of the home and the prosperity of the nation." This document was signed by the particular to weather. When feeding I thin, by the chairman of the Institute of France, and by the director of the Hospital l'Hotel Dien of Paris, experts who are perfectly aware of the insportance of the decisration one is supposed to observe. To know every law, national, state and municipal that effects one would require a constant study of those laws.
